

Always know where your anchor is and also point this out to other boaters - easier than ever

easy flex

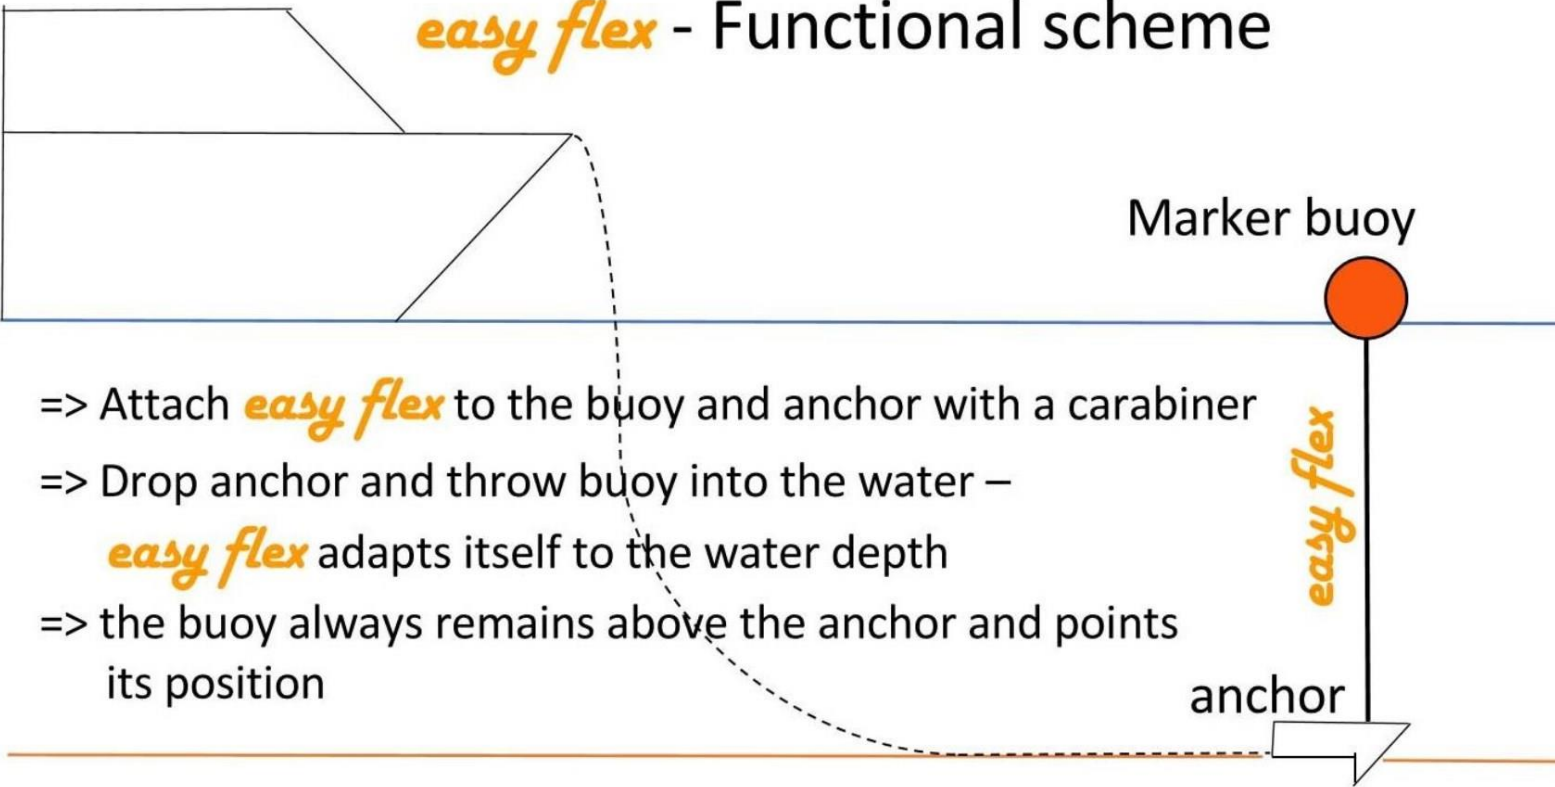

Anchor mark

... a highly elastic rubber band that can be stretched many times its length and thus automatically adapts to different water depths

If you have any questions, please do not hesitate to contact us!

easy flex - Functional scheme

- => Attach **easy flex** to the buoy and anchor with a carabiner
- => Drop anchor and throw buoy into the water – **easy flex** adapts itself to the water depth
- => the buoy always remains above the anchor and points its position
